Costs of submission per variety for the “World-Spirits Award”

- First variety: 790 Euros (net) for one category
or
- 300 Euros (net) per category (for multiple classifications and different brands produced by one distillery)
- Each additional variety: 150 Euros (net)

How to register your product

For each registration, please fill in the appropriate form, e.g. for liqueurs use “BLLI”, for fruit spirits use “OBS” and so on.

If there are any doubts or queries, we will be glad to advise you and assist with your registration.

Example:

Distillery classification – at least five products in three groups

Award – a minimum of 20 registered products in one group

Title: “Spirits of the Year” – at least five products in one variety or variety group

Title: “Distillery of the Year” – 20 distilleries in a category

Group names and names of varieties are identical, they differ only in their abbreviation. In the categories 1 OBB and 2 OBS, we distinguish and group by exact variety (e.g. Jonathan), by group variety (e.g. apple) and by group (e.g. pome); therefore, please enter the exact variety and the group in your registration form.

Under the heading „varieties“, please enter the product with the group’s brief designation. If in doubt, enter under “0000 other”.

We reserve the right to change the classification of certain products. If we do, you will naturally be notified.

Information about the classification

In order to be classified in one or more categories, certain conditions need to be met (see appendix „varieties, groups, categories“).

If the conditions are met, you will receive your classification per category.

In this case, we charge for the first variety of the first category 790 Euros net, and for the first variety of each further category 300 Euros net.

Concerning whiskies, the tasting is performed according to regions (e.g. Highlands, Lowlands, Islay, Islands, Speyside) or according to the variety, such as with apples (Gloster, Reinette, Jonathan ...). After that, the individual group ratings are summarized and the results will be published for whiskies or apples in their entirety.

The organizer reserves the right to reclassify the spirits if necessary, when the registration of a submitting party is not clear, allowing arbitrary classification.

Moreover, groups can be complemented or deleted if there are too few samples submitted - in this case, the category or group is assigned to fruit spirits, for example, or "similar" products (consequently, these samples unfortunately cannot receive an award, but naturally medals). Classification also takes place, provided that the preconditions according to the rules are fulfilled.

The award for the best group or best category is only presented by the organizer provided that there is no division of a product into groups.

In order to make it possible for the organizer to present an award for a certain category, at least 30 products must have been submitted in that same category. The results will not reflect the total number of submitted samples, since only the "winners of medals" are published.

There will be no awards for individual varieties, just medals.
