Product number **1**:
Please list out all products you wish to enter in numerical order. (for example, product 1 to 10 if you wish to enter 10 products)

Category – **2**:

Please refer to our Product Category Chart word document. Placing product in the wrong category results in disfavored assessment.
(For example, OBB (fruit brandy) contains 0% sugar, OBS (fruit spirituous) contains less than 100 grams sugar per liter and Bitters and Liqueurs contain more than 100 g sugar per liter. For detailed info, refer to our Product Categories Chart word document.)

Region – **3** :
This data is only required when your product is an AOC product.
(i.e. Cognac, Grande Champagne, Petite Champagne … Bourbon, Speyside, Islay … etc.)

Group – **4**:
Place your product in the correct group according to our Product Category Chart word document.

Product Variety – **5**:
Please provide further detail on the product variety if applies. (please refer to the Product Category Chart word document)

Original labeling – **6**:
Name of the product must be given exactly as it is labeled on the bottle. If it is a bitter liqueur that has been aged in wood, please make a note during the registration process.

Vintage – **7**:
Vintage should be given even when it isn't mentioned on the bottling label, in order for the judges to assess the product correctly.

Lot Number/Batch - **8**:
If the vintage is clearly stated on the product label, batch number won't be required. In this case we assume all filled bottles are identical in quality.

% Vol. - **9**:
Please specify the exact alcohol content as it is labeled on the product.

Sugar content per Liter - **10**:
This information will only be taken into consideration for judging process and not be disclosed to the public. Please enter the correct added amount of sugar per liter.

Aromas/Bonifikateure/Typagen – **11**:
Please inform us if the product is aromatized with Typage or Bonifikateur, etc.

Please fill in fields below if information is available:
Number of liters produced – **12**
Bottle volume in milliliter – **13**
Retail price in Euro – **14**
Whole sale price in Euro – **15**
